Streamline workflow and optimize department resources with an Intranet portal.

Intranet Development

Internal Services Department

FEATURES

Flexibility and customization
Experienced analysts determine the needs of your organization and create a site design to meet your objectives.

User interface development
Utilizing County design standards, ISD develops an intranet site that gives your staff maximum functionality and is easy to use.

Governance strategies
ISD helps you set operational rules and parameters for your intranet portal, establishing roles and permissions for publishing content.

Effective intranet sites allow your internal operations to be centralized, standardized and customized to your business processes. ISD can assist your department in streamlining operations and communications by developing an integrated intranet site to maximize resources, consolidate document management and optimize workflow.

Our intranet strategy can incorporate various technologies including Microsoft SharePoint, Documentum content management, Lyris list set-up, .NET and more, to integrate workgroups, documents and content.

ISD Intranet Development services include:

- Portal development using design standards to maximize uniformity
- Site scalability, high availability and monitoring and support
- Staff training and knowledge transfer
- Installation, testing and maintenance

ISD INTRANET DEVELOPMENT BENEFITS

SHARED INFRASTRUCTURE FOR COST EFFICIENCY
A shared infrastructure provides efficient database management and software configuration as well as storage administration and performance monitoring and support.

ADVANCED SEARCH CAPABILITIES
Incorporation of sophisticated search engine tools within your intranet site helps manage documents and allows your staff to quickly locate content and information.

EXPERIENCE WITH COUNTY INTRANET SITES
Our deep knowledge of County website development ensures that your site will comply with County standards while providing the customization and flexibility you need.

INTEGRATED SYSTEM SUPPORT
Because your intranet site resides on the County Enterprise Network, ISD provides comprehensive 24-hour a day support including hardware monitoring, software upgrades and business recovery services.
